

□ Meeting Analysis Report

1. Summary

S1 □ 00:00 - 07:01

S2 I will share my screen to report for you. Actually, I am done the introduction part. But the literature review I sent for the daughter before. Maybe I will have the introduction about each application now, like this. Yeah, the editing application, and I will introduce the YSTLDV and YSTV function including, after that, I just combine it with the comparison table.

S3

S4 □ 07:01 - 13:24

S5 Want to use the whole function of the. T.O.D.V. And fire force. Through that. They are only to. A grab to. Pro member. And before pay. So can it be my problem statement because. There's only. For pay. There's no free. Tools. To do so.

S6

S7 □ 13:25 - 20:25

S8 The project scope is not only for the targeted users you need to add all those aspects of your project into the project scope as I told you. The tool that you're going to use for this summarization is ChatGVT for example. The next step is to get the template from a student's portal get the latest template over there but it's still enough to do until the project specification.

S9

S10 □ 20:25 - 28:02

S11 yeah so what for for for for my but now means what will I do later okay what do you need to do is to first of all please try to you know come up with a comparison table for those evaluation that you have done. After that you need a part in your literature review for software development methodology like agile prototyping.

S12

S13 □ 28:04 - 28:41

S14 oh okay actually he is the one who decide for this one to be open work or not uh so I think I think you'd better to ask him to drop him a thing to the other things oh okay okay yeah yeah and actually yes that he isThe course coordinator. He is theOne who decide on this one but to me it's better to beOpenBook.

2. Transcript + Sentiment

00:00 - 00:09 I will share my screen to report for you.

→ *Sentiment: neutral (87.0%)*

00:09 - 00:18 Actually, I am done the introduction part.

→ *Sentiment: neutral (71.8%)*

00:18 - 00:25 Also, I enter the literature review.

→ *Sentiment: neutral (86.5%)*

00:25 - 00:30 But the literature review I sent for the daughter before.

→ *Sentiment: neutral (81.0%)*

00:30 - 00:36 I think it's just very simple.

→ *Sentiment: positive (50.9%)*

00:36 - 00:42 Maybe I will have the introduction about each application now, like this.

→ *Sentiment: neutral (88.0%)*

00:42 - 00:50 Yeah, the editing application, and I will introduce the YSTLDV and YSTV function

→ *Sentiment: neutral (68.3%)*

00:50 - 00:58 including, after that, I just combine it with the comparison table.

→ *Sentiment: neutral (88.6%)*

00:58 - 01:00 Okay.

→ *Sentiment: neutral (58.4%)*

01:00 - 01:01 Yeah.

→ *Sentiment: neutral (54.9%)*

01:01 - 01:04 So, can I see that comparison table?

→ *Sentiment: neutral (86.6%)*

01:04 - 01:05 Comparison table.

→ *Sentiment: neutral (65.0%)*

01:05 - 01:07 Yes.

→ *Sentiment: positive (46.1%)*

01:07 - 01:10 Ah.

→ *Sentiment: neutral (57.1%)*

01:10 - 01:11 All right.

→ *Sentiment: neutral (49.0%)*

01:11 - 01:18 So, you compare these systems that you found.

→ *Sentiment: neutral (81.8%)*

01:18 - 01:23 Are these tools or models?

→ *Sentiment: neutral (83.8%)*

01:23 - 01:24 Ah.

→ *Sentiment: neutral (57.1%)*

01:24 - 01:28 How to say, there's all, all, all two.

→ *Sentiment: neutral (80.8%)*

01:28 - 01:29 All two.

→ *Sentiment: neutral (64.4%)*

01:29 - 01:30 Okay.

→ *Sentiment: neutral (58.4%)*

01:30 - 01:41 So, the two names, for example, fireflies, tactic, flow, something like it.

→ *Sentiment: neutral (88.9%)*

01:41 - 01:44 So, this is the name of the tools, right?

→ *Sentiment: neutral (82.2%)*

01:44 - 01:45 Yeah, right.

→ *Sentiment: neutral (54.7%)*

01:45 - 01:50 And how, what is the metric that you compare these tools?

→ *Sentiment: neutral (84.7%)*

01:50 - 01:56 Is drill time, just stay in the comparison table.

→ *Sentiment: neutral (75.6%)*

01:56 - 01:57 Okay.

→ *Sentiment: neutral (58.4%)*

01:57 - 02:05 So, the real time summarization, all of them, actually support, upload video to some right, right?

→ *Sentiment: neutral (68.1%)*

02:05 - 02:06 Yeah.

→ *Sentiment: neutral (54.9%)*

02:06 - 02:10 One fellow fellow cannot upload the video.

→ *Sentiment: negative (78.3%)*

02:10 - 02:11 Okay.

→ *Sentiment: neutral (58.4%)*

02:11 - 02:13 Multi languages support.

→ *Sentiment: neutral (68.5%)*

02:13 - 02:15 Support platform.

→ *Sentiment: neutral (68.9%)*

02:15 - 02:18 So, what does it mean by support platform?

→ *Sentiment: neutral (87.0%)*

02:18 - 02:24 It means that it is a plugin that we can use it in the Zoom, or we can run these tools

→ *Sentiment: neutral (66.0%)*

02:24 - 02:27 while we are, for example, using Zoom.

→ *Sentiment: neutral (86.4%)*

02:27 - 02:30 Ah, can use it in the Zoom.

→ *Sentiment: neutral (67.8%)*

02:30 - 02:41 Actually, this file of two is just maybe there instead of robot to the meeting and get the

→ *Sentiment: neutral (85.5%)*

02:41 - 02:44 transcription to do, summarize.

→ *Sentiment: neutral (74.5%)*

02:44 - 02:49 So, it's only for getting the transcription, right?

→ *Sentiment: neutral (73.9%)*

02:49 - 02:52 Or does it summarize it?

→ *Sentiment: neutral (83.4%)*

02:52 - 03:01 Or, you know, extract some inside full information?

→ *Sentiment: neutral (87.8%)*

03:01 - 03:05 It's okay, let's try the full information, actually.

→ *Sentiment: positive (58.0%)*

03:05 - 03:12 Oh, for example, how we can ask the tool to extract the information?

→ *Sentiment: neutral (78.0%)*

03:12 - 03:16 For example, we use TL DVS example.

→ *Sentiment: neutral (90.6%)*

03:16 - 03:22 They are all using the AI model as the summarization tool.

→ *Sentiment: neutral (71.4%)*

03:22 - 03:30 Like this one AI generator, you can give the comment and they will generate for you.

→ *Sentiment: neutral (83.1%)*

03:30 - 03:35 But as I say, there's all need to need for pay.

→ *Sentiment: neutral (77.3%)*

03:35 - 03:42 There's just that.

→ *Sentiment: neutral (62.5%)*

03:42 - 03:44 What's in the last one?

→ *Sentiment: neutral (85.5%)*

03:44 - 03:45 Yeah.

→ *Sentiment: neutral (54.9%)*

03:45 - 03:48 And the rest for also.

→ *Sentiment: neutral (69.8%)*

03:48 - 03:50 Also something that the flow.

→ *Sentiment: neutral (81.0%)*

03:50 - 03:51 Yeah.

→ *Sentiment: neutral (54.9%)*

03:51 - 03:56 So the flow doesn't support uploading videos.

→ *Sentiment: negative (63.7%)*

03:56 - 04:06 Okay, so let me check the other metrics user experience.
→ *Sentiment: neutral (84.7%)*

04:06 - 04:10 And then sentiment detect.
→ *Sentiment: neutral (75.7%)*

04:10 - 04:11 Okay.
→ *Sentiment: neutral (58.4%)*

04:11 - 04:13 Detail detect.
→ *Sentiment: neutral (73.0%)*

04:13 - 04:14 All right.
→ *Sentiment: neutral (49.0%)*

04:14 - 04:16 It is a very good actually comparison table.
→ *Sentiment: positive (95.7%)*

04:16 - 04:24 So from this comparison table, you can come out with three different problems statement.
→ *Sentiment: neutral (74.9%)*

04:24 - 04:26 I haven't seen your problem statement.
→ *Sentiment: neutral (55.4%)*

04:26 - 04:28 Have you provided it?
→ *Sentiment: neutral (80.0%)*

04:28 - 04:29 Yeah.
→ *Sentiment: neutral (54.9%)*

04:29 - 04:33 Our problem statement is here with.
→ *Sentiment: neutral (49.7%)*

04:33 - 04:42 So does the problem statement related to this comparison table?
→ *Sentiment: neutral (76.7%)*

04:42 - 04:44 Yes.
→ *Sentiment: positive (46.1%)*

04:44 - 04:46 Okay.
→ *Sentiment: neutral (58.4%)*

04:46 - 04:51 But there's not only in this table are.
→ *Sentiment: neutral (82.0%)*

04:51 - 04:55 For example, this for the first one, I say.
→ *Sentiment: neutral (87.2%)*

04:55 - 04:56 Why?
→ *Sentiment: neutral (61.2%)*

04:56 - 04:58 We need this.
→ *Sentiment: positive (49.2%)*

04:58 - 05:08 So this tool for use because the information of meeting is overload and had to do a summarized.
→ *Sentiment: neutral (79.4%)*

05:08 - 05:09 And the second.
→ *Sentiment: neutral (66.1%)*

05:09 - 05:10 I just.
→ *Sentiment: negative (51.0%)*

05:10 - 05:11 Yeah.
→ *Sentiment: neutral (54.9%)*

05:11 - 05:16 The thing that you explained just now for me.
→ *Sentiment: neutral (79.6%)*

05:16 - 05:21 It would be the motivation and importance of the study.
→ *Sentiment: neutral (60.9%)*

05:21 - 05:23 It wouldn't be a problem.

→ *Sentiment: neutral (64.3%)*

05:23 - 05:26 This one is just.

→ *Sentiment: neutral (46.7%)*

05:26 - 05:30 To the motivation and like the background.

→ *Sentiment: neutral (64.6%)*

05:30 - 05:32 Yes, yes.

→ *Sentiment: positive (84.1%)*

05:32 - 05:40 You know, in the introductions, you know, chapter, you have one subsection.

→ *Sentiment: neutral (83.0%)*

05:40 - 05:43 It would be motivation or importance of the study.

→ *Sentiment: neutral (82.3%)*

05:43 - 05:50 The things that you just explained to me, you can actually move it to that subsection.

→ *Sentiment: neutral (82.0%)*

05:50 - 05:56 Because this is the explanation for the need for these tools.

→ *Sentiment: neutral (78.9%)*

05:56 - 05:58 It's not a problem.

→ *Sentiment: neutral (67.4%)*

05:58 - 06:01 It's just a motivation motivation.

→ *Sentiment: neutral (53.7%)*

06:01 - 06:02 Okay.

→ *Sentiment: neutral (58.4%)*

06:02 - 06:04 And the second one.

→ *Sentiment: neutral (67.3%)*

06:04 - 06:10 The second statement is I say deck of sentiment analysis because it's just now can see.

→ *Sentiment: neutral (82.7%)*

06:10 - 06:15 It's just only to support the sentiment analysis only.

→ *Sentiment: neutral (81.2%)*

06:15 - 06:16 Okay.

→ *Sentiment: neutral (58.4%)*

06:16 - 06:17 Yes.

→ *Sentiment: positive (46.1%)*

06:17 - 06:23 That is very great because you drive it from the comparison table.

→ *Sentiment: positive (94.6%)*

06:23 - 06:27 So that is a valid problem statement.

→ *Sentiment: neutral (66.6%)*

06:27 - 06:28 Yeah.

→ *Sentiment: neutral (54.9%)*

06:28 - 06:33 And the one is the different deck or different function, different depression function.

→ *Sentiment: neutral (75.7%)*

06:33 - 06:34 All right.

→ *Sentiment: neutral (49.0%)*

06:34 - 06:35 These two.

→ *Sentiment: neutral (66.7%)*

06:35 - 06:36 Yes.

→ *Sentiment: positive (46.1%)*

06:36 - 06:38 These two.

→ *Sentiment: neutral (66.7%)*

06:38 - 06:44 What we call problem statement is good enough for your FIP.

→ *Sentiment: neutral (56.1%)*

06:44 - 06:45 Yeah.

→ *Sentiment: neutral (54.9%)*

06:45 - 06:46 But I want to.

→ *Sentiment: neutral (49.8%)*

06:46 - 06:47 For this one.

→ *Sentiment: neutral (64.4%)*

06:47 - 06:48 Just now.

→ *Sentiment: neutral (75.3%)*

06:48 - 06:49 This one cannot.

→ *Sentiment: negative (59.5%)*

06:49 - 06:52 Cannot call is the problem statement in here.

→ *Sentiment: negative (75.8%)*

06:52 - 06:53 So.

→ *Sentiment: neutral (61.7%)*

06:53 - 06:54 Where I asked.

→ *Sentiment: neutral (76.6%)*

06:54 - 06:55 Uh.

→ *Sentiment: neutral (57.6%)*

06:55 - 06:56 Uh.

→ *Sentiment: neutral (57.6%)*

06:56 - 06:57 Whether.

→ *Sentiment: neutral (60.7%)*

06:57 - 06:58 Uh.

→ *Sentiment: neutral (57.6%)*

06:58 - 06:59 For just.

→ *Sentiment: neutral (64.7%)*

06:59 - 07:00 No.

→ *Sentiment: neutral (49.4%)*

07:00 - 07:01 They can see.

→ *Sentiment: neutral (64.8%)*

07:01 - 07:05 Want to use the whole function of the.

→ *Sentiment: neutral (81.8%)*

07:05 - 07:06 Through that.

→ *Sentiment: neutral (66.0%)*

07:06 - 07:07 T.O.D.V.

→ *Sentiment: neutral (72.0%)*

07:07 - 07:08 And fire force.

→ *Sentiment: neutral (62.2%)*

07:08 - 07:09 They are only to.

→ *Sentiment: neutral (66.0%)*

07:09 - 07:10 A grab to.

→ *Sentiment: neutral (69.3%)*

07:10 - 07:11 Uh.

→ *Sentiment: neutral (57.6%)*

07:11 - 07:12 Pro member.

→ *Sentiment: neutral (80.3%)*

07:12 - 07:14 And before pay.
→ *Sentiment: neutral (69.6%)*

07:14 - 07:17 So can it be my problem statement because.
→ *Sentiment: neutral (57.1%)*

07:17 - 07:18 There's only.
→ *Sentiment: neutral (66.3%)*

07:18 - 07:19 For pay.
→ *Sentiment: neutral (64.8%)*

07:19 - 07:20 There's no free.
→ *Sentiment: neutral (60.4%)*

07:20 - 07:21 Yes.
→ *Sentiment: positive (46.1%)*

07:21 - 07:22 Yes.
→ *Sentiment: positive (46.1%)*

07:22 - 07:23 Yes.
→ *Sentiment: positive (46.1%)*

07:23 - 07:24 Yes.
→ *Sentiment: positive (46.1%)*

07:24 - 07:25 Yes.
→ *Sentiment: positive (46.1%)*

07:25 - 07:26 Yes.
→ *Sentiment: positive (46.1%)*

07:26 - 07:27 You can say that because.
→ *Sentiment: neutral (67.4%)*

07:27 - 07:28 There's no any free.
→ *Sentiment: neutral (61.6%)*

07:28 - 07:29 Uh.
→ *Sentiment: neutral (57.6%)*

07:29 - 07:30 Tools.
→ *Sentiment: neutral (49.8%)*

07:30 - 07:31 To do so.
→ *Sentiment: neutral (77.0%)*

07:31 - 07:33 So that's why we are going to.
→ *Sentiment: neutral (74.4%)*

07:33 - 07:34 Uh.
→ *Sentiment: neutral (57.6%)*

07:34 - 07:35 Develop such a tool.
→ *Sentiment: negative (75.3%)*

07:35 - 07:36 Yeah.
→ *Sentiment: neutral (54.9%)*

07:36 - 07:37 This one can.
→ *Sentiment: neutral (55.2%)*

07:37 - 07:38 Okay.
→ *Sentiment: neutral (58.4%)*

07:38 - 07:39 This can be so later.
→ *Sentiment: neutral (75.3%)*

07:39 - 07:40 I will.
→ *Sentiment: positive (48.3%)*

07:40 - 07:41 I will.
→ *Sentiment: positive (48.3%)*

07:41 - 07:42 I will modify about this part.
→ *Sentiment: neutral (83.7%)*

07:42 - 07:43 Yes.
→ *Sentiment: positive (46.1%)*

07:43 - 07:44 And.
→ *Sentiment: neutral (61.9%)*

07:44 - 07:45 In my.
→ *Sentiment: neutral (61.0%)*

07:45 - 07:46 Introduction.
→ *Sentiment: neutral (51.0%)*

07:46 - 07:47 I have to.
→ *Sentiment: neutral (66.7%)*

07:47 - 07:48 The.
→ *Sentiment: neutral (56.7%)*

07:48 - 07:49 Proper.
→ *Sentiment: neutral (60.2%)*

07:49 - 07:50 Okay.
→ *Sentiment: neutral (58.4%)*

07:50 - 07:51 So let.
→ *Sentiment: neutral (65.0%)*

07:51 - 07:52 Let me check your.
→ *Sentiment: neutral (80.9%)*

07:52 - 07:54 Project objective.
→ *Sentiment: neutral (72.7%)*

07:54 - 07:55 So I.
→ *Sentiment: neutral (74.8%)*

07:55 - 07:56 Accuracy.
→ *Sentiment: neutral (69.9%)*

07:56 - 07:57 Summarization.
→ *Sentiment: neutral (73.0%)*

07:57 - 07:59 Uh.
→ *Sentiment: neutral (57.6%)*

07:59 - 08:02 That is a very.
→ *Sentiment: neutral (61.6%)*

08:02 - 08:03 Actually.
→ *Sentiment: neutral (55.9%)*

08:03 - 08:04 Tough.
→ *Sentiment: neutral (56.6%)*

08:04 - 08:06 Objective.
→ *Sentiment: neutral (60.8%)*

08:06 - 08:07 Yeah.
→ *Sentiment: neutral (54.9%)*

08:07 - 08:08 Can I.
→ *Sentiment: neutral (76.4%)*

08:08 - 08:09 Can I see.
→ *Sentiment: neutral (71.8%)*

08:09 - 08:11 Again, your problem statement.
→ *Sentiment: negative (72.5%)*

08:11 - 08:12 Actually the object.
→ *Sentiment: neutral (65.7%)*

08:12 - 08:14 All the objectives need to be.
→ *Sentiment: neutral (70.6%)*

08:14 - 08:15 Towing with the.
→ *Sentiment: neutral (84.4%)*

08:15 - 08:16 Uh.
→ *Sentiment: neutral (57.6%)*

08:16 - 08:17 Problem statement.
→ *Sentiment: neutral (56.1%)*

08:17 - 08:18 Yes.
→ *Sentiment: positive (46.1%)*

08:18 - 08:19 Actually, they are.
→ *Sentiment: neutral (71.0%)*

08:19 - 08:20 Closely related to each other.
→ *Sentiment: neutral (69.4%)*

08:20 - 08:22 For example, if you have sentiment.
→ *Sentiment: neutral (85.6%)*

08:22 - 08:24 Checking for the.
→ *Sentiment: neutral (79.8%)*

08:24 - 08:25 Summarization.
→ *Sentiment: neutral (73.0%)*

08:25 - 08:26 You.
→ *Sentiment: neutral (54.6%)*

08:26 - 08:27 Your.
→ *Sentiment: neutral (57.8%)*

08:27 - 08:28 Objective would be.
→ *Sentiment: neutral (66.3%)*

08:28 - 08:29 Two.
→ *Sentiment: neutral (56.9%)*

08:29 - 08:30 Develop.
→ *Sentiment: neutral (55.1%)*

08:30 - 08:31 At two.
→ *Sentiment: neutral (67.8%)*

08:31 - 08:32 For.
→ *Sentiment: neutral (58.0%)*

08:32 - 08:33 Summarization.
→ *Sentiment: neutral (73.0%)*

08:33 - 08:34 Which includes sentiment.
→ *Sentiment: neutral (82.9%)*

08:34 - 08:35 Detection.
→ *Sentiment: neutral (64.3%)*

08:35 - 08:36 Okay.
→ *Sentiment: neutral (58.4%)*

08:36 - 08:37 Uh.
→ *Sentiment: neutral (57.6%)*

08:37 - 08:38 Be.
→ *Sentiment: neutral (58.4%)*

08:38 - 08:39 So.
→ *Sentiment: neutral (61.7%)*

08:39 - 08:40 Oh, if.
→ *Sentiment: neutral (67.2%)*

08:40 - 08:41 I.
→ *Sentiment: neutral (55.0%)*

08:41 - 08:42 So.
→ *Sentiment: neutral (61.7%)*

08:42 - 08:43 Oh, if.
→ *Sentiment: neutral (67.2%)*

08:43 - 08:44 What do you say this?
→ *Sentiment: neutral (80.2%)*

08:44 - 08:45 Uh, before.
→ *Sentiment: neutral (73.2%)*

08:45 - 08:46 Before we.
→ *Sentiment: neutral (75.0%)*

08:46 - 08:47 We.
→ *Sentiment: neutral (59.1%)*

08:47 - 08:48 We study.
→ *Sentiment: neutral (78.1%)*

08:48 - 08:49 Maybe I.
→ *Sentiment: neutral (76.9%)*

08:49 - 08:50 I can show you.
→ *Sentiment: neutral (69.7%)*

08:50 - 08:51 Show you something.
→ *Sentiment: neutral (74.8%)*

08:51 - 08:52 Doctor.
→ *Sentiment: neutral (66.3%)*

08:52 - 08:53 Okay.
→ *Sentiment: neutral (58.4%)*

08:53 - 08:54 Yeah.
→ *Sentiment: neutral (54.9%)*

08:54 - 08:55 Before that.
→ *Sentiment: neutral (69.9%)*

08:55 - 08:56 Never actually.
→ *Sentiment: neutral (57.7%)*

08:56 - 08:57 Estate any.
→ *Sentiment: neutral (78.2%)*

08:57 - 08:58 Presentage.
→ *Sentiment: neutral (66.2%)*

08:58 - 08:59 For the accuracy.
→ *Sentiment: neutral (70.4%)*

08:59 - 09:01 Or other metrics in your objectives.
→ *Sentiment: neutral (80.2%)*

09:01 - 09:03 Because if you don't reach it,
→ *Sentiment: neutral (53.1%)*

09:03 - 09:04 then your.
→ *Sentiment: neutral (62.2%)*

09:04 - 09:05 Objective would be.
→ *Sentiment: neutral (66.3%)*

09:05 - 09:06 Uh, you know.
→ *Sentiment: neutral (61.8%)*

09:06 - 09:07 What we call.
→ *Sentiment: neutral (74.0%)*

09:07 - 09:08 We rejected.
→ *Sentiment: negative (65.2%)*

09:08 - 09:09 We reject that.
→ *Sentiment: negative (76.7%)*

09:09 - 09:10 Objective.
→ *Sentiment: neutral (60.8%)*

09:10 - 09:12 Because you didn't achieve it.
→ *Sentiment: negative (80.2%)*

09:12 - 09:16 So never use this kind of percentage in your objective.
→ *Sentiment: negative (65.4%)*

09:16 - 09:17 Okay.
→ *Sentiment: neutral (58.4%)*

09:17 - 09:18 I try to do this.
→ *Sentiment: neutral (69.4%)*

09:18 - 09:19 Uh.
→ *Sentiment: neutral (57.6%)*

09:19 - 09:20 Yeah.
→ *Sentiment: neutral (54.9%)*

09:20 - 09:21 Because before.
→ *Sentiment: neutral (66.6%)*

09:21 - 09:22 I have tried it.
→ *Sentiment: neutral (69.2%)*

09:22 - 09:23 It's too.
→ *Sentiment: neutral (63.2%)*

09:23 - 09:24 Above.
→ *Sentiment: neutral (63.0%)*

09:24 - 09:25 Here.
→ *Sentiment: neutral (57.1%)*

09:25 - 09:26 By using.
→ *Sentiment: neutral (73.6%)*

09:26 - 09:27 Concretion.
→ *Sentiment: neutral (71.5%)*

09:27 - 09:33 By using the.
→ *Sentiment: neutral (80.5%)*

09:33 - 09:36 Accuracy.
→ *Sentiment: neutral (69.9%)*

09:36 - 09:37 I have tried it.
→ *Sentiment: neutral (69.2%)*

09:37 - 09:38 It's too.
→ *Sentiment: neutral (63.2%)*

09:38 - 09:39 Above.
→ *Sentiment: neutral (63.0%)*

09:39 - 09:40 Here.
→ *Sentiment: neutral (57.1%)*

09:40 - 09:41 By using.
→ *Sentiment: neutral (73.6%)*

09:41 - 09:42 Uh.
→ *Sentiment: neutral (57.6%)*

09:42 - 09:43 Concuration.
→ *Sentiment: neutral (75.3%)*

09:43 - 09:44 The.
→ *Sentiment: neutral (56.7%)*

09:44 - 09:45 By using the.
→ *Sentiment: neutral (80.5%)*

09:45 - 09:46 Accuracy.
→ *Sentiment: neutral (69.9%)*

09:46 - 09:47 Accuracy.
→ *Sentiment: neutral (69.9%)*

09:47 - 09:48 Named.
→ *Sentiment: neutral (69.9%)*

09:48 - 09:49 L.
→ *Sentiment: neutral (54.8%)*

09:49 - 09:50 We can call the.
→ *Sentiment: neutral (82.5%)*

09:50 - 09:51 Each.
→ *Sentiment: neutral (60.5%)*

09:51 - 09:52 Summer.
→ *Sentiment: neutral (61.1%)*

09:52 - 09:53 Each.
→ *Sentiment: neutral (60.5%)*

09:53 - 09:55 The result of the two.
→ *Sentiment: neutral (70.1%)*

09:55 - 09:57 Best result.
→ *Sentiment: positive (87.9%)*

09:57 - 09:59 I didn't get.
→ *Sentiment: negative (65.5%)*

09:59 - 10:02 I didn't get your question.
→ *Sentiment: negative (64.7%)*

10:02 - 10:03 Well, I.
→ *Sentiment: neutral (74.3%)*

10:03 - 10:05 I'm confused about it.
→ *Sentiment: negative (69.8%)*

10:05 - 10:06 Uh.
→ *Sentiment: neutral (57.6%)*

10:06 - 10:07 Okay.
→ *Sentiment: neutral (58.4%)*

10:07 - 10:08 The first.
→ *Sentiment: neutral (61.9%)*

10:08 - 10:09 I.
→ *Sentiment: neutral (55.0%)*

10:09 - 10:10 I've found.
→ *Sentiment: positive (53.0%)*

10:10 - 10:11 Are we.
→ *Sentiment: neutral (76.4%)*

10:11 - 10:12 Results from the.
→ *Sentiment: neutral (82.0%)*

10:12 - 10:13 Westside.
→ *Sentiment: neutral (59.9%)*

10:13 - 10:14 From this.
→ *Sentiment: neutral (73.0%)*

10:14 - 10:15 Am I.
→ *Sentiment: neutral (77.9%)*

10:15 - 10:16 Coppers.
→ *Sentiment: neutral (60.8%)*

10:16 - 10:17 Actually, this.
→ *Sentiment: neutral (73.5%)*

10:17 - 10:18 Westside.
→ *Sentiment: neutral (59.9%)*

10:18 - 10:19 Content.
→ *Sentiment: neutral (71.8%)*

10:19 - 10:20 Many.
→ *Sentiment: neutral (64.7%)*

10:20 - 10:21 Data.
→ *Sentiment: neutral (63.4%)*

10:21 - 10:22 From meeting.
→ *Sentiment: neutral (81.6%)*

10:22 - 10:23 Meeting.
→ *Sentiment: neutral (80.1%)*

10:23 - 10:24 Meeting.
→ *Sentiment: neutral (80.1%)*

10:24 - 10:27 Merit sense.
→ *Sentiment: neutral (69.6%)*

10:27 - 10:29 November.
→ *Sentiment: neutral (62.6%)*

10:29 - 10:33 And I.
→ *Sentiment: neutral (73.6%)*

10:33 - 10:34 I.
→ *Sentiment: neutral (64.0%)*

10:34 - 10:35 The.
→ *Sentiment: neutral (56.7%)*

10:35 - 10:36 emberer to.
→ *Sentiment: neutral (68.9%)*

10:36 - 10:37 Wait.
→ *Sentiment: neutral (58.5%)*

10:37 - 10:38 I, I.
→ *Sentiment: neutral (66.9%)*

10:38 - 10:40 The sample.

→ *Sentiment: neutral (67.2%)*

10:40 - 10:42 And I transferred the.

→ *Sentiment: neutral (79.7%)*

10:42 - 10:43 Sample.

→ *Sentiment: neutral (50.5%)*

10:43 - 10:44 To a word.

→ *Sentiment: neutral (58.1%)*

10:44 - 10:46 Okay.

→ *Sentiment: neutral (58.4%)*

10:46 - 10:47 Am I just.

→ *Sentiment: neutral (66.0%)*

10:47 - 10:50 Sum LAUGH I.

→ *Sentiment: positive (49.9%)*

10:50 - 10:53 I.

→ *Sentiment: neutral (55.0%)*

10:53 - 11:01 two at this school they get it means the accuracy to the best to the best

→ *Sentiment: positive (70.2%)*

11:01 - 11:11 summarization I I get from ChatGVT or DC oh yeah so which means that the

→ *Sentiment: neutral (88.6%)*

11:11 - 11:20 accuracy is not high enough actually for the transcription they are enough

→ *Sentiment: neutral (55.2%)*

11:20 - 11:29 high accuracy but the summarized or as daughter can see there's just more

→ *Sentiment: neutral (78.7%)*

11:29 - 11:38 than is that's than 50% and why is because as I said just now they are all

→ *Sentiment: neutral (73.4%)*

11:38 - 11:43 using this AI generator and this one is the collate the transcription inside

→ *Sentiment: neutral (87.2%)*

11:43 - 11:51 and summarized they are self but user only can affect the output if they say

→ *Sentiment: neutral (73.8%)*

11:51 - 11:59 something up here so it will cause a different summarization and last I think

→ *Sentiment: neutral (87.6%)*

11:59 - 12:06 there are some tools that you can use for evaluating the summarization

→ *Sentiment: neutral (79.1%)*

12:06 - 12:15 no need to use ChatGVT oh I mean I can I can summarize is by Nadala yes yes

→ *Sentiment: positive (70.7%)*

12:15 - 12:21 oh yeah actually actually in this project I will do the summarization by

→ *Sentiment: neutral (56.6%)*

12:21 - 12:29 another AI motor but for now it's just I need the summarization as a best

→ *Sentiment: neutral (82.1%)*

12:29 - 12:45 reference for another output okay okay yeah okay yeah as example here this

→ *Sentiment: neutral (52.1%)*

12:45 - 12:56 summarization is the reference summary this is I summarized using the GVT

→ *Sentiment: neutral (87.7%)*

12:56 - 13:05 I think this more complicated now yeah and that this result is by another two

→ *Sentiment: neutral (51.7%)*

13:05 - 13:12 just now the five two you as daughter can see this quite short and simple yes yeah

→ *Sentiment: positive (64.5%)*

13:12 - 13:24 so I using this summary by ChatGVT as a best and compare to another summary
→ *Sentiment: neutral (68.0%)*

13:25 - 13:35 so what you can do actually you can use ChatGVT also so maybe we can have
→ *Sentiment: positive (51.2%)*

13:35 - 13:44 ChatGVT API integrated into your project and use ChatGVT for summarization oh so
→ *Sentiment: neutral (73.8%)*

13:44 - 13:51 use ChatGVT as summarization yes because besides that I found another
→ *Sentiment: neutral (54.0%)*

13:51 - 14:01 summarized the motor like but Pengargos there's also also can summarize the
→ *Sentiment: neutral (88.4%)*

14:01 - 14:10 transcription okay but you found that ChatGVT is most accurate between all those
→ *Sentiment: positive (61.5%)*

14:10 - 14:21 which you you know evaluate right yeah so what you need to do is you need to
→ *Sentiment: neutral (83.7%)*

14:21 - 14:27 provide another comparison table for the AI models or tools that they can
→ *Sentiment: neutral (84.2%)*

14:27 - 14:33 summarize for example some AI models that you found ChatGVT deep seek and then
→ *Sentiment: neutral (90.8%)*

14:34 - 14:42 compare the accuracy and then yeah based on that table you can see because
→ *Sentiment: neutral (87.3%)*

14:42 - 14:48 ChatGVT is the most for example what we call accurate one that's why we may need
→ *Sentiment: positive (51.4%)*

14:48 - 14:58 to use ChatGVT in our tools to have a bridge in between ChatGVT and our tools to
→ *Sentiment: neutral (72.4%)*

14:58 - 15:07 summarize all those you know information that you want okay okay yeah and now for
→ *Sentiment: neutral (69.9%)*

15:07 - 15:12 the for the more in this introduction also got a project score and I introduced
→ *Sentiment: neutral (79.5%)*

15:12 - 15:21 what is my target user in this project the project scope is target user can be
→ *Sentiment: neutral (89.9%)*

15:22 - 15:31 one of them and also project scope is for example if you want to work on the you know sentiment
→ *Sentiment: neutral (87.4%)*

15:31 - 15:39 detection you need to talk about how far you want to work on this sentiment detection for
→ *Sentiment: neutral (91.6%)*

15:39 - 15:48 example you may say that we don't want to actually define to you or develop new AI model we
→ *Sentiment: neutral (66.3%)*

15:48 - 15:54 are going to use the existing ones like ChatGVT so this one actually would be your project scope
→ *Sentiment: neutral (84.5%)*

15:54 - 16:02 too because sometimes the the what we call the moderator may ask you why you didn't come up with
→ *Sentiment: neutral (72.5%)*

16:02 - 16:09 your AI model or why you didn't fine tune other model why you use ChatGVT so you say that this
→ *Sentiment: neutral (68.3%)*

16:09 - 16:17 is the scope of my project fine tuning other model is out of my scope so it's not only for the
→ *Sentiment: neutral (74.5%)*

16:17 - 16:25 targeted users it would be for all the models that you can you want to actually use all the tools
→ *Sentiment: neutral (78.6%)*

16:25 - 16:29 that you want to use you need to list out all of them as well
→ *Sentiment: neutral (88.6%)*

16:29 - 16:48 I know very understand about it mean the project scope also project scope is not only for the
→ *Sentiment: neutral (72.1%)*

16:48 - 16:55 targeted users you need to add all those aspects of your project into the project scope
→ *Sentiment: neutral (74.7%)*

16:55 - 17:08 as I told you for example you want maybe you want to you decided to use ChatGVT for your sentiment
→ *Sentiment: neutral (78.8%)*

17:08 - 17:17 detection right or for the summarization right or sentiment detection you need to just write it
→ *Sentiment: neutral (85.6%)*

17:17 - 17:25 down that the tool that you're going to use for this summarization is ChatGVT for example
→ *Sentiment: neutral (88.3%)*

17:26 - 17:35 oh but for this step I'm not sure the final final two I will use is ChatGVT I also right here
→ *Sentiment: neutral (68.6%)*

17:36 - 17:45 okay you can leave this scope until the end of your report so by end of your report maybe some of
→ *Sentiment: neutral (90.5%)*

17:45 - 17:50 the other aspect would be clear then you can add them into the project scope
→ *Sentiment: neutral (58.1%)*

17:50 - 17:58 okay yeah and then if a project scope is not completed for FYP1 it's still okay you can
→ *Sentiment: neutral (68.0%)*

17:58 - 18:06 complete it in a 5p2 to make sure that you define all the scope that you cover for your project
→ *Sentiment: neutral (77.8%)*

18:06 - 18:11 otherwise you will be asked from the moderating why you didn't for example cover this part
→ *Sentiment: neutral (68.3%)*

18:11 - 18:20 you can simply say because it is out of my scope okay before I want to conform for the project
→ *Sentiment: neutral (63.3%)*

18:20 - 18:32 one the final output is until ChatGVT right yes yes ChatGVT is which one because I see there is
→ *Sentiment: positive (67.9%)*

18:32 - 18:40 different from for another senior so what what you need to do is actually to get the template
→ *Sentiment: neutral (86.3%)*

18:40 - 18:48 from a student's portal get the latest template over there yeah but it's still enough to do until
→ *Sentiment: neutral (82.0%)*

18:48 - 18:57 the project specification yeah project specification you can get some of the requirement
→ *Sentiment: neutral (86.2%)*

18:57 - 19:04 specification from the questionnaire oh so this is the last part in this project one right
→ *Sentiment: neutral (90.5%)*

19:05 - 19:13 yes you can get these from project specification from the questioner some of it and for some
→ *Sentiment: neutral (81.2%)*

19:13 - 19:20 other project specification you know your project whether that anywhere so you can specify all
→ *Sentiment: neutral (85.2%)*

19:20 - 19:35 those requirements okay yeah and so I want right here it is too low in this step I just enter
→ *Sentiment: neutral (61.9%)*

19:35 - 19:43 the chapter two it's okay actually because you come up with the chapter two and a very nice
→ *Sentiment: positive (96.5%)*

19:43 - 19:51 comparison table we drive problem statement from that comparison table I think you are done with 60
→ *Sentiment: neutral (78.0%)*

19:51 - 20:00 or 70% of the way so the remaining part is 30% so please try to modify your objective to be
→ *Sentiment: neutral (86.9%)*

20:00 - 20:06 based on the problem statements first and then try to complete the methodology section
→ *Sentiment: neutral (87.6%)*

20:06 - 20:16 you have methodology section how you want to solve the problems then share with me your methodology
→ *Sentiment: neutral (87.0%)*

20:16 - 20:25 then we can move to the next step okay so it's for now I do a conclusion for my part now okay
→ *Sentiment: positive (53.8%)*

20:25 - 20:40 yeah so what for for for for my but now means what will I do later okay what do you need to do is
→ *Sentiment: neutral (86.8%)*

20:40 - 20:52 to first of all please try to you know come up with a comparison table for those evaluation that
→ *Sentiment: neutral (84.2%)*

20:52 - 20:59 you have done those percentage for the chat to be the other tools or all those percentage for
→ *Sentiment: neutral (87.6%)*

20:59 - 21:08 the summarization okay and then please try to complete your problem statement based on this
→ *Sentiment: neutral (62.4%)*

21:08 - 21:18 comparison tables okay then modified your objective to be based on the problem statement
→ *Sentiment: neutral (82.3%)*

21:19 - 21:27 and don't use any percentage didn't you any presentation okay yes you know if you don't achieve it
→ *Sentiment: neutral (54.2%)*

21:27 - 21:36 then all your objective would be rejected oh okay okay okay then this is the thing that you need
→ *Sentiment: negative (61.2%)*

21:36 - 21:42 to do and after that you need to actually have another part in your literature review for
→ *Sentiment: neutral (86.6%)*

21:43 - 21:57 software development methodology like agile prototyping yeah I do do before yeah I think this
→ *Sentiment: neutral (71.9%)*

21:57 - 22:06 four will I do later which is for the application the two and model and the methodology okay okay
→ *Sentiment: positive (50.6%)*

22:06 - 22:17 so do based on your plan then if you are you know able you can write down the methodology section
→ *Sentiment: neutral (89.6%)*

22:17 - 22:28 then share it with me to see how is it okay and then for the EFYP I have that meet it
→ *Sentiment: neutral (83.7%)*

22:28 - 22:41 but haven't haven't passed okay okay I'll check it okay at the level okay no problem I will check yeah
→ *Sentiment: positive (56.7%)*

22:42 - 22:51 and also because in the project class the nature has said I should get the
→ *Sentiment: neutral (85.3%)*

22:51 - 23:01 account for the supervisor right oh yes yes I will share with you yeah so so so it's just later okay actually
→ *Sentiment: positive (84.7%)*

23:01 - 23:11 I provided for my students but normally they ask me at the end of the trimester but yeah let me
→ *Sentiment: neutral (73.7%)*

23:11 - 23:21 share it here with you okay so here is the Trinity account
→ *Sentiment: neutral (78.0%)*

23:24 - 23:33 and then for the logbook I think the last one I haven't marked it so it has been marked for you
→ *Sentiment: neutral (84.5%)*

23:34 - 23:35 the logbook also marked
→ *Sentiment: neutral (85.0%)*

23:41 - 23:56 all right anything else yeah before I think I should share something for for the first
→ *Sentiment: neutral (74.2%)*

23:57 - 24:05 because before I'm very confused to how my application worked but so I just do a prototype
→ *Sentiment: negative (49.9%)*

24:06 - 24:13 now there's just a simple simple view for the website yeah but the result is just
→ *Sentiment: neutral (63.4%)*

24:13 - 24:20 for the for the transcription I haven't haven't I haven't inserted the summarized mode this just
→ *Sentiment: neutral (72.5%)*

24:20 - 24:28 for C okay this is quite simple and good yeah yeah this just what is that upload the
→ *Sentiment: positive (91.7%)*

24:29 - 24:35 voice file okay okay yeah like I've done there with the file and it will transfer
→ *Sentiment: neutral (52.2%)*

24:35 - 24:44 even summarized after that for now it's just only the transcription okay yeah and also for the
→ *Sentiment: neutral (58.0%)*

24:44 - 24:53 different detect or something is these two wouldn't be real time we need to upload the voice to get
→ *Sentiment: neutral (70.9%)*

24:53 - 25:03 just the transcript is it no no the after that we we can get the real time I will do the real time
→ *Sentiment: neutral (85.2%)*

25:03 - 25:11 real time function but for the problem now it's for the different just now I say for another two
→ *Sentiment: neutral (73.2%)*

25:11 - 25:19 there using the method they are used is insert a robot into the meeting to catch the video to catch
→ *Sentiment: neutral (82.5%)*

25:19 - 25:28 transcription right yeah but now I cannot do this so maybe for the different detect or it will
→ *Sentiment: negative (61.6%)*

25:28 - 25:37 catch the user screen that uh something example is just I share screen now it will share a screen
→ *Sentiment: neutral (88.0%)*

25:37 - 25:45 to the website and detect the video to do the different detection it's okay yeah yeah it's okay
→ *Sentiment: positive (70.6%)*

25:45 - 25:52 yeah it's okay right because I I follow if I catch direct in the
→ *Sentiment: positive (75.1%)*

25:55 - 26:01 app in the meeting app using another function is have a policy problem so
→ *Sentiment: negative (54.0%)*

26:02 - 26:09 so I think only only can using this stress screen function to do that okay okay yeah I can
→ *Sentiment: positive (66.9%)*

26:10 - 26:17 yeah so I think I think that's all I think I should focus I should
→ *Sentiment: neutral (56.0%)*

26:17 - 26:23 done the literature review by this week uh before before before before I think I think
→ *Sentiment: neutral (92.1%)*

26:24 - 26:33 okay okay I try to do it before and I share it with me we may have another meeting to discuss about it
→ *Sentiment: neutral (49.8%)*

26:34 - 26:40 yeah okay and can I ask uh some external Christian Christian via
→ *Sentiment: neutral (90.3%)*

26:42 - 26:48 yes yes sure because for the uh one where application I see got two
→ *Sentiment: positive (63.9%)*

26:48 - 26:56 critical assessments so what will we cover in this Monday critical assessment one uh actually I
→ *Sentiment: neutral (92.3%)*

26:56 - 27:04 asked this question from Dr. Nabloff based on what he said uh all the topics from the week one
→ *Sentiment: neutral (91.1%)*

27:04 - 27:13 of practical until the end of the authorization or until the end of authorization yes would be for
→ *Sentiment: neutral (82.7%)*

27:13 - 27:23 the practical practical exam one on Monday okay okay but for the practical exam two
→ *Sentiment: positive (59.2%)*

27:23 - 27:33 uh it will be based on the front end and then I yes which I guess I'm not sure uh you can ask
→ *Sentiment: neutral (86.8%)*

27:33 - 27:41 this one from Dr. Nabloff is regarding to the reactions that the um actually topics that we are
→ *Sentiment: neutral (92.1%)*

27:41 - 27:51 going to work on from week 10 to week 12 okay but for the next Monday one is
→ *Sentiment: neutral (59.0%)*

27:51 - 27:57 open put or not because yesterday no the doctor never said he also to share
→ *Sentiment: neutral (64.3%)*

27:59 - 28:02 he's not sure oh there's no sure
→ *Sentiment: neutral (58.2%)*

28:04 - 28:12 oh okay actually he is the one who decide for this one to be open work or not uh so I think
→ *Sentiment: neutral (86.8%)*

28:13 - 28:19 I think you'd better to ask him to drop him a thing to the other things
→ *Sentiment: neutral (76.3%)*

28:19 - 28:26 oh okay okay yeah yeah and actually yes that he is the course coordinator and he is the one
→ *Sentiment: positive (87.0%)*

28:26 - 28:35 who decide on this one but to me it's better to be open book so let's uh uh Dr. Nabloff let's see
→ *Sentiment: neutral (73.7%)*

28:35 - 28:41 Dr. Nabloff decision okay so
→ *Sentiment: neutral (67.8%)*
